EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Doherty on 1/5/06.

The application has been amended as follows:

In claim 1, line 22, after the word "member" the phrase --- after said intervertebral spacer device is fully assembled for insertion into an intervertebral space--- was inserted.

Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: the spinal implant comprising first and second plate members with a ball captured within a retaining wall and a retaining ring to hold a convex element adjacent to the first plate member, wherein the convex element allows the plates to be movable or rotate with respect to one another was found to be novel. The prior art patent 5989291 did disclose plate members with a convex element and a ball held between the two plates, but did not teach the retaining ring adjacent or engaging and maintaining the convex

element within the retaining wall. The prior art patent 5893889 also disclosed plate members with a ball and convex element within a retaining wall, but did not have a movable or rotatable convex element with respect to the plate member it is connected with once assembled and implanted.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian E Pellegrino whose telephone number is 571-272-4756. The examiner can normally be reached on Monday-Thursday from 6:30am to 4pm. The examiner can also be reached on alternate Fridays. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott, can be reached at 571-272-4754. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
